Clean version of the amendment to the specification:

In the brief description of the drawing, clean version of replacement paragraphs:

FIG. 1 is a perspective view of the embodiment of the invention showing a luggage case with a photograph affixed to the outer side of the wheel;

FIG. 2 is a front elevational view of a luggage case with a conventional pocket affixed to the outer side of the upper half of the cover of the luggage case for storage of documents etc.; and

In the detailed description, clean version of replacement paragraph:

As shown in the drawings FIG. 2, a preferred embodiment of the invention shows a front view of luggage case 1 with a conventional small pocket 2 in the upper half of luggage case 1 and a broken line 3 defining the zippered access in the front or cover of closed luggage case 1. When zipper 3 is unzipped it provides access to the interior of luggage case 1 through the closed cover of luggage case 1.
